Subject: RE: Draft Notice of Intent Forms for new Indiana Admin General Permits

Scott –

I was just following-up to check the status of EPA's review of the NOI's that were submitted for review on the below listed GP's?

Thanks.

Subject: Draft Notice of Intent Forms for new Indiana Admin General Permits

Dear Region 5 EPA:

Attached are the draft Notice of Intent forms for our new administrative general permits. Please note that there are 5 documents attached to this email. These include the NOI forms for

ING340000 Petroleum Products Terminals

ING670000 Hydrostatic Testing of Commercial Pipelines

ING490000 Sand, Gravel, Crushed Stone, and Dimension Stone (aka Stone Quarries)

ING080000 Ground Water Petroleum Remediation Systems

ING250000 Once Through Noncontact Cooling Water

We have not yet sent these forms for official state form approval, so the formatting will change

once it moves to that step. So obviously the content is the main thing on which to focus your review. Please feel free to contact me if you have any questions.
